**Part 0001... Original 7 civil Noahide laws,
 you're not under the 10 Commandments.**

My hometown, Mt.Vernon, Illinois U.S.A. ©

7' tall 1 ton granite 10 Commandment. "on
 courthouse lawn, has **been removed** 2025.

It's amazing how many ignore the law
 posting the 10🔥Commandments on public
 property. Only to be sued to remove them.

Newspaper stories & pictures **Myself** shown on **media** website: thyGodisone.com

10🔥comm. is a powerful traditional symbol of
 Judaism **only**, You **will not** see 10🔥Comm., in
 Front **of** "Jewish" synagogues! "**Law**" prohibits
 Exodus, 20:4 **Jews displaying this 3-D icon, graven**
images. To Judaism it's only the beginning **list**
 of 613 **Laws** for Jews only "forever".

#3#❤️...Jews don't have to prove nothing to themselves or others,

3.

how religious, holy , righteous, etc. they are. In synagogues a image 10🔥comm. may be found above the Torah Ark scrolls or curtains covering it called Aron Kodesh.

Displaying **Icon Jewish 10🔥comm.** no different then putting a **icon replica Ark of covenant, on your courthouse yard, holding 10🔥Comm..** It's a 4'x2'w, solid **gold** box + 2-wing Cherubim figures on top, **inside original, rectangle stone 10🔥Comm., + 1- pot manna + Aaron's walking stick.** You're not off the first page & you may be already learn something you didn't know. Also, *Christians don't know, about God ordain "Talmud" warning death, judgment copycatting Jewish icons. Explain more later.*

#4#❤️... **Law & order;** *This is something you're not gonna hear on ABC, NBC, BBC news.* 6,000 years ago **Original** set of **7 civil Laws** or beginning 2,500 #4#❤️... years before 10🔥Comm.. Described as 7 universal 🌈 Rainbow Noahide civil **laws**. Just 7 simple **civil** moral laws. Required for all people.**It was to set a foundation for the bed rock of society for non-Jews, to live by & up to & past 21st century in the new world for all 70 nations.**

⚡ Note: This report has dual purpose. Uneditd, **many fragment** sentences, condensing 25,000 words in to 20,000. This **uncharted territory will be the** most powerful history report, you will read in your life time. Appearing in newspapers. Note; I didn't graduate high school, I miserably Failed english, Some may reject what I'm saying because I'm not highly educated with degrees. It may be too simple for the highly educated to understand. **I know I broke all seven rules of writing a book,**

#5#❤️...which started out to be a 500 word report. Everybody's got truth, but never, considering, consulting Jewish scholars. Because they've been labeled spiritually blind. Note; No threatening of Hell fire burn forever used..... This report has 6 Parts ; This is not a fair copy, but a rough copy for a new book. The draft is in progress, this transcript or manuscript hopefully, I can find a literary agent. That would accept a revolutionary subject. I may be 1000 years ahead of my time.

10,000 different religions each has a group of converts testifying, they found the best religion in the world.

I will **briefly be** talking to N.T. followers, illegally trying to keep **mosaic laws, that was set aside for Jewish religion only**, such as the sabbath, 7 Holy Days, etc. . Reference; **Torah, Tanach . This reporting, starts where Da Vinci Code leaves off at. The world 🌍 is changing, fast ground breaking, revolutionary knowledge you never heard before, as you will see. Journalist work several months on a story, I spent 30 years getting to this point. Title;** word “God” is used, it’s common to the people. The term, “Ben Noah” means sons of Noah.Larry King show

#7#❤️... once talked about this subject, pastor removed its “**church steeple**”, after learning about **7** Noahide civil **Laws** concept. **7.**

Is there a **evolution** history hidden in those church steeples across the nation, that seemed to touch the **clouds** Like Tower of Babel ? “**Obelisks**” *icon of Egypt, a long history which symbolizes honoring the sun god journey, beginning in Egypt. 400AD bells-was added to Obelisks. Yes , or no, let’s move on .*

✓ Few books, talk about controversial scriptures, seriously questioning **N.T.** but leave you no **conclusion what God expects of you.** Once **verdict** is in, this subject **will have a dual purpose** as you will see.

In the beginning God wanted, law & order in the world. Without laws, **no judgment.** Looking deep

#8#❤️...into Jewish archives a brief fast tracking history how **7 civil Noahide laws** is understood in **Torah. Also discussing multiple subjects.** 7 civil Noahide laws, not written by Noah, before, "**orally**" understood. After flood written down. **No** 9"x 18" stone square tablet, like 10🔥Comm. Or 🔥 burning bush. (**No ceremonial Sabbath**). Only 7 simple civil **moral** laws, established over several hundred years, then given to Noah. Noahidism is understanding **faith of Israel** without **joining**. There is a technical difference between **laws** & Commandments. Sometimes **7 civil laws** referred to as "**7 Comm.** Incorrectly, it's no big deal. Parts of the **7 civil Noahide laws** & **10🔥comm.** Overlap each other ... Unknown **7 civil** laws mean nothing to Christians & Muslims or 10,000 different religions. One reason because of the **1 mile high brick wall between Jews & the world** & you know, what caused that reason.

#9#❤️... Christianity say 10🔥Comm. Are mix in N.T., one has a different meaning than Jewish scholars Interpret it, especially definition of “one God”.

9.

🌍 There is no central 🌍 authority, other than preserved by Judaism. Noahide: These original primitive laws are **Civil laws**, Like in your community, **but from examples of events. As God legislated without being a organized religion.** Gods intention there was not to be organized religions but, ***atmosphere of civil laws*** For the people. Later God established one religion from **group of Hebrew people**, to over see & archive the truth for the 🌍 world. Putting so much strict demanding, criteria to live under, For Jews. Separating them from rest of the world & man-made religions... As you see 10,000 different religions today, thousand different scripture

#10#❤️...interpretations. **This is exactly why God did not want world religions for everybody. 10.**

Moses 10🔥Comm., God says, (I Command). Noahide civil laws don't **say that**. There was no local recognized government, but a **code of *ethics*** exist among the people, who where especially, in touch with "God". Is my religions freedom going to be taken away??? Again, & again I must emphasize **Gentiles was not to organize any "religions", only Jews. In the eyes of God, gentiles never had freedom, making their own religions, or stealing or adultery, Etc. . Now let's briefly discuss the 7 civil laws.**

President Bush, Sr & Jr & Clinton Legislated, House joint Resolution 102nd Congress H.J. Res. 104 ENR designating 3-26-91 US government **recognizing 7 civil Noahide Laws.**

Someone argue they're not under NO laws. Without laws, there is no judgment. First 2500 years, there was no religion just believing realizing one God, invisible Existed. After 250 years U.S.A., The words on the dollar bill, 2026 could we be living near the Novus Ordo Seclorum Beginning New Era? Why God did not post to sign

102nd U.S. Congress (1991-1992), House Joint Resolution H.J.RES.104.ENR designating March 26, 1991, as Education Day, U.S.A.:

"Congress recognizes the historical tradition of ethical values and principles which are the basis of civilized society and upon which our great Nation was founded ... these ethical values and principles that have been the bedrock of society from the dawn of civilization, when they were known as the Seven Noahide Laws."

The universality of these principles and global import was recognized in 1982 by President Ronald Reagan when he spoke of "the eternal validity of the Seven Noahide Laws [as] a moral code for all of us regardless of religious faith" (Proclamation on the National Day of Reflection, April 4, 1982).

#11#❤️... on each 7 continents listing these commitments . The Earth Going through a primitive time. Described as adolescent, growing pains, Millions billions of years, we're only in the 6000 year cycle.

List of 7 🌈 Noahide civil laws ||.

This would be appropriate posting on public property , it's not associated with a religion.

Law # 1 🌈 ✓ Not to “worship idols”: Talmud explains, easily misunderstood. Gen.2:16. Ex.20:3 **most broken.** Its understanding true definition of **One God** & correct definition of a **idol**.

Judaism nobody **related** to God. Jewish scholars; Genesis 1:26 **let US** referring to angels.

A. B. C. different views about jesus god.

A. Jewish view, first world 🌐 appearance orthodox Messiah (Mashiach), He is a liberator **figure** rebuilding temple, restoring Israel back to its full glory, gathering **all Jews + 144,000**. “He” was

#12#❤️... never scheduled to die, murdered, redeem your sins.. He is antichrist anti-Zeus, jesus, dionysus, apollo + **Anti-5** thousand other gods on the **6** mile high religious **totem pole**. Google, associating humans related to God. Talking about others gods, you most likely don't know about.

12.

B. Christian view, jesus a god related or thought to be God or both of them, the same, jesus god first world 🌍 **appearance. Major major** event, establishing **ideology** similar, parallel to **human & blood** 💧 **sacrificing for your sins.** Supposedly **2nd** return, jesus god is going to make everybody a pretending-blood drinking, corpse eating Christians... or coming in clouds, with a army, ?Ninja? 🥷 soldiers on flying 🦄 ?unicorn? horses?

C. Muslim & Islam view jesus first world 🌍 **appearance, help organizing a new religion.**

#13#  ... **2nd** return kills lying Dajjal (Antichrist). Making everybody a Muslim... Christian & Islam both believes in virgin Mary, many other gods had virgin birth also, “you” most likely do not know about. Virgin birth, & jesus, Muslims copied from Christianity. Book Thy God is one explains more.

13.

Law # 2   Not “Curse” God: Often said rolling off somebody’s tongue so easily in a derogatory way usually said most common, **subconsciously** said, when something is a little annoying, Lev.24:16. Word “**God**” is a **title**: Tetragrammaton alphabet. Jewish scholar’s Hebrew name, “**YHVH**”, still a title represents Gods actual name in **vain**. Jews do **not say actual name**. So serious this is, **if** you’re trying to say the name probably “**NOT**” saying it correctly anyway. Rabbis say actual **name** once a year, after spiritual preparation, days before of **atonement**. “HaShem” Saying the Name without actually saying it. **Trying to say**

#14#❤️... **the actual name**, eventually will be more damaging to your soul than you realize.

14.

Law # 3 🌈 ✓ Establish Court of “**Justice**”: From example, was established after kidnapping of #14# #1 daughters of Jacob. Gen.34:25. **This applied to all 70 nations, each nation has one angel over it.** After Moses, God directly over the Jewish nation.

Kidnapping probably the worst sin, huge part of american early society, kidnapping & buying a slave just as guilty..... Jews temporarily owning slaves in Book of Numbers is a different circumstances. Slaves was treated most respectfully, eventually released.

Law # 4 🌈 ✓ Not to “**Murder**”: Gen.9:6, capital punishment, who sheds man’s blood, often mistakenly viewed as one of 10 Comms.....This does not say **I command** , but saying what will

#15#❤️... happen to you if you murder ... killing
protecting country ok.

15.

Law # 5 🌈 ✓ Not to commit “**Adultery**” or
 incest: Etc. etc. Gen. 2:24.

Law # 6 🌈 ✓ Not to “**Steal**”: Gen. 2:17, Adam &
Eve Story; Fruit was not theirs.

Law # 7 🌈 ✓ Not to “**Eat**” flesh of a “**living
 animal**” Gen. 9:4. If tree fell on animal, do not **eat** it
 right away. Give it enough time to be declared dead
 before eating it. **7** animals eaten today a alive.

🔍 Statues Noahide; Includes treatment of dogs,
 chickens, bullfighting, rodeo, bull riding & sex with
 animals, etc. etc. 21st century animal humane
 society obeying one of the **7 civil laws** not realizing
 it. Senseless killing of animals prohibited. Jews do not do sport hunting ,
 but OK for gntiles if used for food or If an animal kills a human, it's to be
 put to death. Trophy hunting, exotic animals no, no, no.... To the animal

#16#❤️... kingdom the big game trophy hunters, would be no different than Hitler, who hunted down the Jews. 1966 Jefferson county, Illinois my hometown a little black bear, traveling through the county, group of men, found out & chased it down & had to Shoot it & kill it, as a loud thump on the ground could be heard, as it fell from the tree, the dogs chased it up. Then they stuffed it, & display in the local courthouse Lobby.

16.

I can still remember, seeing it, in the courthouse, **in a glass cage about knee-high.** Deut, 22:6,7, & Psalms 147:9, God says "He" prolong your life if you **protect** animals.

My next mission is hopefully going to schools & talking to young men in agriculture classes , That usually hunt on the farms & I know personally many animals have been shot & Killed unnecessarily, especially birds of prey. Ernest Hemingway biography, he murdered, leopards, lions, rhinos, Etc. etc. etc. I wonder what his judgment will be? I probably shouldn't say this, but I remember **11** years old someone handed me a gun & I shot a little bird. Oh, how I still regret it to this day, & remind God to forgive me. I can still feel a little birds pain.

Remember, you're only getting 1/3 the truth here, you need to study the statues!

A reliable source, 7 laws, (Lubavitch.com) **Chabad.org Ask the rabbi , AskNoah.org . My mission is to point you in the right direction to**

#17#❤️... investigate. Caution: Some claim to be of Noahide foundation & try to mix christianity into it.

Few condemn Noahide , claiming Jews are trying to deceive them.

17.

Through out time, who knew about these 7 civil Noahide codes laws? Originally believed in one God, until **white eyes** changed **Native American Indian** minds forcibly, + Aboriginal, Caveman, Indigenous , **etc. etc. etc.. African ancestry, believed in ONE God also until they were kidnapped,** living under 7 civil laws guidelines & not even realizing it, **coincidentally,** obeying each Law. Millions don't go to **church,** most may be living a good moral life, **most** likely believing in **one God.** We may have a built in moral **compass,** even though it's easily to override..... **Supporters** for 10 Comms. On public property, **we should have the right to express our faith**".

#18#  **... What If:** Muslim wanted to put **star**  with a crescent **moon** in front courthouse?

What If: Church of **satan**  wanted place **statue** of **devil**, staring at you driving by? Your children in back seat looking with “**goggle-eyes.**” Gov. recognizes it.

18.

News release; This report, July 2025 been exposed to no less than 50,000 readers, in many news papers, full pages **reports**, not one word from Christian defense.

From Adam & Eve to Jesus err About 4000 years for all the gentiles, nobody thinks what was or how the standards of the codes to live by . There was no religious organizations until God instructed Hebrews to organize Judaism only. Greek mythology of religion of gods, was all that really existed as far as the Gentiles knew. Judaism understood the 7 Noahide Civil commitments For the righteous gentiles, especially who lived around the community. Who was allowed to visit the temple, but could not participate in Passover eating of the lamb or never required to keep the ceremonial Sabbath. Gentiles was simply not under any of temple policies. The reason gentiles was not to be under Jewish laws, was not because

#19#❤️... somebody was nailed to a Cross. I will be discussing the real reason gentiles was never required to keep the Jewish laws..... Since the beginning of time there was many righteous gentiles, who knew the code of living a moral life? Which still continues in the 21st-century.

19.

Jewish definition of righteous Gentiles; Faithfulness, observes precepts 7 civil Noahide laws Is considered righteous. Is promised a share in the world to come. (Olam-Ha-Ba).

Jewish Hebrew, terminologies adheres to 7 civil laws a (Honorific) title bestowed for gentiles by thy state of Israel.

There is no certificate handed out. No, cresting with the tap or dubbing of a sword on each shoulder.

The word (**Honorific**) dictionary (Like "Dr" or "Mr") grammatical form used to show respect, courtesy, or to indicate a person's social status ,rank,

#20# ❤️... or esteem in addressing or referring to them common in many Languages,,, those who understands keeping the seven civil laws

Part # 0002 You were never under the Jewish Sabbath. Jews only are to keep Sabbath forever.

20.

➤ **Huge groups of Christians, believing their 8 steps ahead of christians claiming gentiles are under Moses 10 🔥comm. & should embrace the Sabbath, declares horrible judgment on those that don't, "a big fat lie".**

Some Christians believe Sunday is 7 day Sabbath that's OK, there not copycatting the Jews.

Here are some facts Christian Sabbath keepers don't know about! I was so seriously guilty almost 10 years, keeping the **4th ceremonial Comm. Sabbath,** Mistakenly convinced by others, believing the **10 🔥comm.** are not

#21#❤️... multiple choice. Eventually, I realized how damaging it was to my soul.... 21.

One example; Many different N.T. groups *SDA, Messianic, Sacred name, Etc., some claiming you die at judgment, if you don't keep Moses 10 🔥 comm. Sabbath, "a big fat lie."*

Some groups claim **not** to be christians, If you believe in somebody sitting next to God, walked on earth you are a christian.

Some saying **all** 10 Comms., existed at creation or outer space somewhere, for everybody to obey. "If so" not written down anywhere on earth until Moses went to Mt., which was the beginning of a new Hebrew religion. Some christians pick & choose Jewish 613 laws, not keeping the sabbath **correctly anyway.** Some N.T. followers claiming their **now**, Gods chosen, copycatting, **sabbath**, trying to keep It like Jews. Claiming 312AD church of Constantine, change sabbath to sunday ,"a big fat

#22# ❤️ ... **lie**" + Some claim sunday worship, it's mark of beast 666, "**a Big fat lie**". Sabbath was never changed, Jews still keep it today. Constantine 312 AD church never kept the sabbath. Book "*Thy God is one*" explains more.

22.

Not keeping mosaic laws, absolutely nothing to do with jesus or ***nailed*** to wooden object. **Talmud** strictly forbid **you** to try to keep sabbath like Jews. **Some thinks the "Talmud" is a comic book or never heard of it, it's just as important as Torah.**

Jewish "**Talmud**" A 48,000 pages commentary to Torah , explains real meaning of 🔍 **13 century BCE Exodus, 31:13***** 💀💀💀 hebrew-Israel only to keep Sabbath as a perpetual sign between them, & God only. **Death penalty, if your attempting trying to keeping parts, Moses 10 comm. "sabbath".....**

Many gentile christians will agree with that, but somehow include themselves, it's OK, attempting, keeping sabbath like Jews, because

#23#❤️... thinking, thy are now the new "Israel" replacing Judaism
& there body is the new Temple .

23.

Also, you have small groups? Believing they must physically see the **new moon** in attempting to participate in the **7** Holydays .These Christians did not know nothing about what they are doing in attempting Keeping **7** holydays. Call the FBI or "National Security" something suspicious on the mountain. The real MOSHIACH will not appear on Mt. Olives with a knife in his mouth, like

#57#❤️...your favorite pirate, Captain long John Silver, **Johnny Depp**-Jack Sparrow, etc. etc..... He will not set up camp fire 🔥 & live there & roast marshmallows. The real **Moshiach** will **not** have long, blonde hair , blue eyes wearing a white robe with a gold crown, or have eyes like 🔥 fire & feet like bronze, Revelation, 1:14 or wearing a robe dipped in 💧 blood 💧, setting on a white horse. The best example I could come up with the **Moshiach**, pure human, will be like George Washington First U.S.A. president U.S.A. 🇺🇸, he also established full rights for Jews. At the same time owning slaves..... Abraham Lincoln, freeing the black people or Dr. King fighting for civil rights, Etc. etc.. But right before your eyes 👁️ you might see the **Moshiach develop into his mission**, will be a ordain divine, establishing glory to Israel eternally & **live million years never dying**. **Bottom line, the Jews will know before everybody else who the Moshiach is.....** The world will “not” because they’re looking for a glorified Superman, Spider-Man, incredible Hulk, personality, Etc. from a mythological or maybe from non-human species.

By assimilating into their nature an awareness of and a temptation to sin, Adam and Eve became unworthy to remain in the spiritual paradise of Eden; consequently they were expelled. As a result, life changed in virtually every conceivable way. Death, the need to work hard physically as well as spiritually, the pain of giving birth, and the millennia-long struggle to regain that lost spiritual plateau are all part of the decree God was about to pronounce.

A devil 🤡 was born out of Greek mythology & mans imagination. So to **scare** the hell out of you or Into submission . **Islam** believes in the devil 🤡 (liblis-lblees) kicked out of heaven, refusing to **Bow to Adam.**

There was no 😈 devil in story of Job. **Evil inclination** “Yetzer Hara”, so misunderstood, misinterpreted. **God** does **good & evil** Isa. 45:7, evil comes within. Word “Satan” is not **Lucifer**. There's a long list of people, With mental health, symptoms supposedly “Possessed” exodus procedure **casting out devils ???** “**Humans cannot be devil 😈 possessed**” Matthew, Mark & Luke jesus, casting demons into pigs 🐷 , “**a Big fat lie**”. 1233 Pope Gregory declared all black cats + dogs believing there link to Satanism, 250,00, dogs & cats killed , then changed his mind when rats overran Europe.

Christians claiming the devil is after them all the time, but then turned around & claim the devil has no power over them. Is that a double standard? If

Lucifer is the Latin translate Hebrew word "Helel Ben Shamar" means morning star also, referring someone falling from the heavens, not kicked out. Again, falling from the grace of God. Bottom line Jews do not interpret as independent angel kicked out of heaven.

How evil works? In a court of justice, you have **prosecutor** to prove you guilty. He is not a evil person same principle applies in heaven, **when God instructs angels. Christians will be asked,, will you denounce jesus?** They'll be afraid, believing a devil is tempting them. The Branch Davidians, David Koresh, fire 76 burned alive, at Waco Texas, they believe they was having a holy war with a devil 😡. **Bottom line, there is no hell or devil following the 4 horses destroying humanity**

A fact, Gentiles around world was **never** under Temple policies, or 613 “Mosaic laws” supposedly nailed to a wooden object. **With jesus on 1 of many wooden objects** various sizes & shapes, **where jesus crucifixion** supposedly **was**, “place of *skull*” with other **scrificed humans** attached, on hillside over Jerusalem, **vacant lot**, explained in book of “Book of the prophets.” So humbling, the crucifixion & **jesus god** born around animals, made a children’s story book more believable. **Any important**

#70#  ... sacrifices, clean animals. Had to be done within temple gates where the “Name” established. Most likely you read all the scriptures, God condemning any kind of human sacrifice, Deut. 12:29,31 Etc. etc.... That’s like scripture of condemning murder, but it’s OK pretend doing it... Or condemning stealing, but pretend doing it....

God doesn’t have to prove anything to anybody. Mel Gibson , the movie *The Passion Of The Christ* . Unless jesus was superman underneath, beaten with a whip, sharp metal edges, his backbones exposing, lost over half of his body blood, dehydrated, then carrying what could be **200Lb**, heavy timber cross up a hill, miles away. **“A big fat lie”**. Most men would have hard time carrying a 50 pound bag dog food into the house.

Christianity is total self centered .

Most believe God’s over the complete universe

#71#❤️...forever. Some thought the world was flat, some thought the sun & universe revolves around the earth. Is it possible there's thousands of civilizations out there? If so, did God reenact the crucifixion over & over & over ??? Absolutely not. Everything is "civil". You have the "Uranus" Planet🪐. There is believed to be 400 billion "Rolled" Free-flowing drifting planets not orbiting a star. Scientist, believe earth will die because of old age that's not true. How much avoidable disasters can man stop? I don't know. The world trying to explain in so many different ways God's future plan, Theological, Anthropology, Apocalyptic, Apocalypse, Nationalism, Etc. etc. etc. Never ending list. The devastating effect of religions, too much time, trying to prove their spiritually above Everybody else, rather than focusing on problems

#72#  ...around us. Again, the first time in 1 million years I could not write on this subject without the computer age.

Maybe earthlings someday when technological travel improves we can be described as UFO aliens. As we may briefly drop in on primitive earths, style beginnings.

My previous comment has nothing to do with, old TV show 1950s Superman, faster than a speeding bullet, more powerful than a locomotive, able to leap tall buildings, coming from another planet, **Krypton**. Or ALF, a comical, little fur-ball, who love fantasizing eating cats, he was alien from planet Melmac. Our minds cannot comprehend, ancient skies beyond the cosmos, Milky Way, or going in “one direction”  Straight up millions billions light years, then you hit that “ancient stone” wall deteriorating, like you see in Israel, saying “Sorry Dead End” What about million billion light years

#73# ❤️ ...past that stone wall ??? Bottom line, is earth, only place suppose crucifixion existed ???

💊 # 003 Moderate earthquake, **73.**

Identity theft, is this where it began.

Yes, I know all about those **300 misinterpreted** prophecies, explained by non-Jews who don't speak Hebrew, **supposedly** talking about jesus god first coming. Not one place you'll see name, "jesus". Or **Never never, never, was Moshiah described redeeming your sins or being killed or murdered....** #1 example from Jewish commentaries, not talking about jesus, N.T. interprets Isaiah 9:6 talking about jesus christ a wonderful counselor, promised Messiah, bringing eternal life, Etc. **"A big fat lie"**

Tanach footnotes Isaiah **9:6** referring to meticulous end of Sennacherib's siege of Jerusalem.... Wonderful salvation took place in day

💊# 004 Huge earthquake.....

Forgiveness of sin, *there is power, there is power* 🎵 *power* 🎵 *in the blood* 🎵 *in the blood of the lamb* . Oh as 20 years in the

pentecostal, Church of God, how I sing along 🎵 to that 1,000 times. How many times you heard that song??? Don’t raise your hands. You probably could hear it in the back of your mind right now. **It’s “a Big fat lie”.....**

Christianity preaches salvation is free &

#76#  ... you're eventually given a new body. In the real world, you must prepare yourself for living eternity understanding the true definition of healthy, living & eating.... **76.**

Most misunderstood is Jewish sacrificing. **No blood** sacrifice redeem Jews **SINS**. Around world ancient human sacrificing eating a  bloody "heart"  of a person, heads, rolling down ancient temple steps.

How about (spiritual cannibalism, & vampirism?) What part of jesus body do you pretend eating ?????? (anthropophagous) Jewish views about pretending eating **dead corpse, (cyanosis), after 10 seconds changing into** bluish-purple decaying skin of a human corpse. + drinking coagulating blood  which turns "pukey" vomit

#77#❤️... brown, as red💧 changes color due to oxidation. **What a real delicacy for buzzard or vulture. I wonder how many Christians today Run & would drink out of any cup, if they thought it was jesus💧 real blood in there ?** What was the purpose of supposedly jesus blood in a cup? There is a legend where Joseph buried the cup, a spring came up out of the ground water, with a tinge of red color.

Legendary story, holy grail, How did Joseph drain jesus cup full 💧 blood which, immediately clotting, coagulation thickening blood, Liquid turn into gel. I'm sure they had way to explain it. **I guess everybody carry extra gold cup around with them...**

77.

Torah - Tanach all humans💧 blood that walked on earth is unclean. Judaism **BLOOD**💧 **a major subject.** Strict kosher procedure butchering a animal eliminating blood. A man cannot sleep with his wife for 7 days on her **menstrual**💧 cycle.

#78#❤️... She cannot go to the Temple temporarily. If a Jew touched a **dead** person 💀 , was unclean, until he went through many **series** of rituals, to be **clean, days** before going into Temple. Once a year, If a High Priest had a 🩸 bloody nose & walk into **Holy of Holies** was **struck dead**, among other reasons. "bells" where attached at bottom edge of priest robe to let those outside He was still alive. It's believed, if struck dead a rope was tied to his leg. ***Temple is where the ark of covenant stored, so sacred & solemn.*** Moving, Ark from different location, unauthorized a young man "Uzzah" touched Ark, & struck dead thinking he was, saving the Ark from falling over , 2nd, Sam. 6:6. **78.**

A huge subject today, looking for the *Ark of the covenant*, gentiles are not going to find it. I don't believe the Knights Templar had possession of it or

#79#❤️... gentiles not going to find the ashes of the red heifer.

79.

“So” when John 6:53 jesus says, if you don’t eat my 🪦 dead **corpse** & **drink** my coagulating “blood, 🩸 **you die**” did not **scare** Jews. Telling Jews, to pretend to drink human 🩸 blood would be like telling you to pretend drinking clogged up, smelly **toilet** water sitting around to be saved.

Blood transfusions, Genesis 9:4 Leviticus, 17:10-14, This is not talking about blood transfusions, but eating blood. Jews do accept blood transfusions today. I know it’s a touchy subject. But one cannot deprive someone of a blood transfusion thinking it’s biblical not to. Without getting into detail, any animal Jews killed in the wild, or in back of the barnyard the blood 🩸

#80# ❤️ ... should be covered up Leviticus. Gentiles can cover up the Blood 🩸 out of respect if ... **80.**

God never walked in the flesh, jesus walking around Jerusalem, eating **food** going to **toilet**, maybe had a **girlfriend**, **Da Vinci code** ,in reality, jesus was just **pure human** Like others who claim **to be God**. Nobody knows many dozens of scriptures saying **God never walked** around in **Flesh**, Isa. 40:25 , 43:10 & 11, 46:9 etc. etc.. God knew many men will claim to be **Him**. (Pharaoh-Egypt). **God** 🚶 walking in flesh would have left door wide open, to deceive “more” people.... Yes, Genesis 3:8, God walked in the garden nobody actually seen him, It was a Anthropomorphic description... Note: there was a noise heard... Exodus 33:20 God said to Moses, you cannot see my face.

#81# ❤️... **Passover blood** 🩸 Over the doors had nothing to do with redeeming sins. N.T. incorporates parallel to jesus, to all **7** holy days, unleavened, bread, Pentecost-**Shavuot etc...** If you try hard enough, you put jesus riding on **two** white, magical 🦄 flying unicorns, **standing up on top**, , wearing a helmet, *galea like a Roman soldier*. *Roman riding*, one foot on each horse, or like in a circus, You can throw in there there **also**. **81.**

One God many god's, God did not have 2 different names . My travels 🚂 ✈️ throughout the country Haiti, they had a different a “creole” name for jesus. Jews are not allowed to **say** names of other “gods” **out** of their **mouth** Ex.23:13.....Name “jesus” Greek Mythology literature & Haitian jezi, Spanish pronounced, Hay-soos Gee-Zus is **similar to most powerful 1 of 12**

Dying; Gentiles around world , **about to die** was very simple, Look up & Just ask for forgiveness. Beginning with caveman  , Native American Indian, etc. knowing was about to die, would look up & say **“Oh God”, please receive me**. Like little **Porky Pig**  said “That’s all folks!”, no jumping over the moon. Not a bunch of religious hoops to jump through or tithing. Tithing only Israel told to do. I’m sure you’re blessed supporting charities.

Give me your money if you want to get Rich?
 “Oh”, how many times preachers claiming \$ huge

#86# ❤️ ... bags of 💰 money, if giving to them, & there Followers by the hundreds barely can pay the rent or groceries. When some preachers dies, there multi-millionaires. I've been a victim, giving money TV Evangelist J.s. & then find out He got caught in a whorehouse. My **first** Pentecostal pastor was having sex in the church with women. Jim Baker good example also Scamming people Spending five years in jail & still has a church. People may be watching more closer today. Of course, I believe it will happen again. I did have many good sincere Pentecostal pastors.....

Jews did seven different sacrifices. One was to bless Gentiles. One sacrifice **sounds** like a sin offering covering everybody without needing to repent. There is offering for unintentional sin, too complicated to explain how Jews scholars interpret.

One Point of this Brief "Report" , Gentiles & Jews don't need 🩸 blood 🩸 sacrifice of any kind & understanding we are living in reality. The biggest misconception trying to rationalize, what have you been mind

#87#❤️... conditioned to believe most of your life. You may think how could God let so many people be deceived. There might not be that many if you think about it, **not** worshiping a false god, that Not Christian, Scientology, Universal Unitarian , Hinduism, Buddhism, 🇹🇷 Islam, Sikhism, Taoism, Shinzo, Indigenous beliefs, **Etc. etc.....** Most focusing on diverse **Spiritual paths.....** Philosophical systems, **Distinct from church doctrines.** I'm not saying they're all perfect I'm sure there's some Noahide statutes that needs to be clarified.

87.

The world is full of many billions people who never went to church, Native American Indian, wasn't a Christian, the black people of Africa, they was not Christian.. People across the U.S.A. 🌍 Worldwide who do not attend church they usually believe there's a one God. I don't know how much birth pains are left beginning the million years. Millions of years has past, we are living in the early **"early stages"**. **From** Adam & Eve, **ONLY** 6000 years past, now, the next stage, preparing for the millions years on earth 🌍 ahead. **It might take another thousand years if the number # 7 means anything.....** 💊 # 005 **Moderate** Earthquake, Noahide **statutes**: No other **Bibles**. **Just** because N.T. 🚫 **lying** on top of Torah-Tanahc doesn't make it **one**. **So** serious & disrespectful to Jews. Muslim

#88#❤️... & Christian bibles written over 500-700AD years after God finished, sealed off Torah-Tanaka. God warning **don't add**, Mal 3:6, Deut., 4:2 , etc. Note: Muslims hundreds years later copied parts **N.T. story about jesus. Didn't get idea from Jews.** **What about Muslims? Not guilty idolatry, there is so many other violations. There religion is built like a deck of 52 playing cards, jesus is the architect-dealer. Statutes in book explains more.** Muslims have a different view about God then Christians do climbing Sovereignty, Academic theological, Missiological, Capricious talking about Nature of God. Islam is very complicated as they describe their destiny, starting with Abraham, comparing jesus with the father of other nations like a wild donkey of a man, kinda like Superman. One main problem with there theology timeline of their suppose events, **Leading up to the religion**

#89# ❤️ ... didn't match with Jewish history of events.
 which makes there religion complicated & would
 not prove one thing to say one more word. **89.**

Illegal 10,000 man-made religions,

#90#  ... John 18:3 jesus arrest, maybe up to 300 + Roman soldiers. This wasn't 9/11 Obama bin Laden. If jesus would've been arrested 21st-century 🗽 U.S.A. It would have been 600 marines, 🚁 1 AR64 "Apache" helicopter, design – ground, air combat, carrying 2 hellfire missiles, 30 MM machine guns, flying over the garden, HP spotlight on jesus praying or to himself before being arrested. **90.**

Old TV show; Here is a Perry Mason moment; kangaroo trial of jesus, old western movies trial is done, usually in front of jail or in saloon. Brief autopsy of jesus trial, gross mistrial of world history. Nobody knows civil laws of the temple, having a trial. All 71 judges had to be present. Daylight hours only. Capital offense, must wait 24 hours, if declared guilty to give sentence, could **not not not not** be given 40 stripes & turn around sentence to death afterwards. High priest where

"Big fat lie"

Matthew 26:65 Says **High Priest rips his sacred robe**, Lev. 21:10, that **never** happened, **priest** would not do such a thing. Simply not allowed to **do** & will be disqualified.

A trial would never be held at a private home. With a few priest present. You could not spit on & beat defendant half to death. Mark 14:65..... jesus being sent to Pilate, what a **joke!**
Pilate Historians say Pilate was a stiff necked harden military leader, temper hotter then a **pepper x Sprout**. Reminds me old Johnny Cash song. Rule with iron hand, never asked permission from anybody. Supposedly being defeated in a humble voice, Pilate apologizing "I wash my hands of this

Out of goodness of the Romans heart❤️, releasing **thief** on passover, **no such custom.** Romans was murdering Jews, weekly, burning down towns & synagogues, women raped. **Sending** jesus to Romans being executed, would be no different than today, High priest sending one of its own to **Palestinians, Gaza Strip to be executed.** To have a **trial** about jesus on a multi-day preparation, **Passover**, etc. event, most sacred time of the year for Jews, would be no different than your local **Christian judges**, taking somebody home for a trial on **Christmas Eve**, in their basement, & beating them half to death.

#93#❤️...Note; Pilot fictitious ??? Josephus a fictional person says he's not.....

93.

Was there any factitious characters in the New Testament? There is no record a Pilot existing except what N. T. says. Let me give you example you've heard the story about the ***Trojan*** horse, "**Odysseus**" a battle over a woman, Lasting 10 years, haven't you? & most everybody I talk to believe it's true. Some historians Question it. One of the chapters talks about his **Poseidon curse a 10 year war with a sea god**, because Odysseus blind, the one eyed Cyolops giant. This giant, Eaten two of his crew members alive bones & all. There was children born with one eye because they have eaten some toxic Plant , caused a deformity. Also a skull of a Elephant been discovered, & it has a hole in the skull Looks like a eye socket , thought to be Polyphemus-Cyclops..... If you read rest of the

Babylonian captivity; Three different times, Jews last time 597 BC went in to Babylonian captivity. Originally each **prophet** had the Torah-

Temple destroyed; Why was it destroyed? The American white house was burned down by the British 1814 it didn't stop America becoming great country. I'm sure God had a dual purpose reason again, things are done in reality & what God wants done. God allowed mankind to control the world & you see what's happening. Yes, Jews had it internal problems, so has the U.S.A.... So often I see Christian's beating Jews, with a **big trench club** with nails **spikes** poking out everywhere, usually over exaggerating their problems. jesus criticizing, **rebuking Pharisee** "traditions of men" , Matthew

#96#❤️... 15, & Mark 7. **A young** man, criticizing the Jews, said to me one day, the Jews have a bunch of man-made religious traditions. I said name one, he says “washing of hands”, “my reply”. Don’t you wash your hands before you eating & after you gone to the bathroom??? Note Jews, pray 5 minutes Before & 5 minutes after eating. I seen them do it in Jewish restaurants.

Serious bible studying, **2** volumes original testament ***Torah First five books & Tanach-book of prophets. Stealing I believe one of the most serious things today, It's **everywhere**, I believe in a 10 mile radius of most homes could be 30% of the people steal which there ✨ of life is only going to fade out. They usually don't know anything about the Bible & could care less about everlasting life, & only think of what they can do today. Just leave your car door unlocked for five minutes.

Should I belong to the **Freemasons** group, touchy subject. I have seen the Masons refer to jesus or Christmas icons which they're not supposed to do, but there roots are deep into things, I cannot explain now. They do good works today, you could

What about tattoos & gay movement? Leviticus tells the Jews absolutely do not do it. All I'm gonna say is it's between you & God. There is drugs that affects the body drastically, but there is thoughts that has no relation to food or drugs that could influence someone's lifestyle, gambling addiction, one example, yes, the genetic body can be born in the wrong **body, men** with a feminine side, but is there more to it than that? all I'm gonna say. Just like one's, mine, could be so destroyed by sexual desires, Is it about reconditioning your mind? If so, I wish I could explain it in one paragraph. .

We must be careful of the things we wear. I do not wear shoes with the Nike emblem on it. The orthodox Jewish women may not wear men's pants. It's all about modesty & nothing else I'm gonna say. Gentile ladies, are not under the same policy as Jews. **You seen the scripture mention not wear women's clothes or vice versa. Talking to Jews only.**

The Gentiles can do & get away with so much more than what Jews are allowed to do. Especially in those isolated islands & jungles, where everybody may go half naked. Some of these comments are based on the statues of the **7 laws** codes.

Jews do believe in miracle healings, laying hands on somebody, it requires so much, unmanageable strict discipline, **Long period, going through many stages so demanding** ,It's maybe rarely seen.

Note: Islam may have some respect or understanding for the principles of 7 civil Noahide laws. **As Christianity live under some of the ...principles, But rely on a new covenant to interpret their moral standards. "jesus says you're not talking to God directly". **Again**, Reminds me of the song, Toby Keith, I want to talk about me, me, me. Every Christian, I talk to, claims there talking directly to God, claiming jesus is God, or referring, **not** talking to a Catholic Priest. Jer. 33:3 & 1st kings 8:41 ,

I need 40 pages to explain this. 6000 years believes it’s the end of the beginning, night fall of September 16, 2240 Gregorian calendar, 200 years remaining. **Sounds about right considering what I’m saying now. When the Mashiach is established fully, it may take 200 years to get up to that point.** I’m not trying to predict any certain time other, then to give you some feeling of , how things may transpire. Lot of religions try to disassociate themselves with the Rome religion, but if you believe somebody is sitting next to God that walked on earth, you are a Christian. Your roots are a mile deep. Cannot be explained in one paragraph. I will not say much, because the Jewish scholars has the education to address this. Gentiles most likely cannot explain the after life, like Jewish scholars. When I originally began writing this report, I had no intentions of talking about the afterlife. In the next few pages will be kind of scattered, Maybe Some subjects out of context. After I thought I was completed on this report, so many nights, I was woken up with thoughts, & had to write them down or forget them by morning. Hopefully you can find a few gold nuggets to better understand life.

 After you die, what happens, Do you just lay there dormant until a resurrection & judgment? A **Christian view**, believes you immediately go to heaven based on the requirements of there religion, or a burning hell, which there is no such place as a hell burning forever. **However, you believe** You must distinguish the difference in a Christian influenced way of thinking. The afterlife Biblical Reference Olamhaba To the biblical afterlife, **The interim of heaven, before the final stage of Olam-Ha-Ba or World to come & underworld of the dead, or the Messianic age, it's so easy to lose your share or spiritual status. Many are waiting for that to happen soon.**

I doubt if the rabbis could give a good guess. I myself probably just been reincarnated from a iceman or caveman .**

I may sound like I’m trying to save the world, As I talk about, reincarnation may **sound like science fiction!** **123.**

Where as Gentiles deal with the 7 laws & statues. Before you dive into the after life, one will have to re-condition there minds if you’ve been a Christian all your life. You’ll have the next million years to

#124#❤️... investigate. It's so easily to be fooled & mislead. I encourage you to seek out real Jewish scholars, who can help you to determine the truth, But may not be that much to worry about at this time.....

A brief summary; Unlike understanding of ancient Egypt, Greek mythology world. Christianity Or Catholicism, Purgatory etc. etc. How life regenerates, millions of Jewish scholars, there are a number of honorifics in Judaism, Talmudic, Kollel, Yeshiva, Etc. etc. who study Vast amounts hours a day most of their life, has the best understanding of the afterlife, which cannot be explained in one paragraph.

The spark of afterlife may be compared to July summer night, when the fields are full of billions, lightning bugs, or fireflies hovering above the tall grass on misty "moon lit" night. Waiting to find their destiny. The past physical love ones & your soul mate on earth believed to

#125#❤️... be waiting for you to join them, may not happen like you one would think. In a lifetime, someone could have 3 soulmates because of accidents, disease, Etc. etc. Which one would you be with in the end? If you're past the age of retirement, you've seen that happen. I myself believe it would be nice if one could remember His past life, & all his mistakes. In the next life, once we become established to live forever, will Everybody have a different mindset being independent???

125.

Again, we're only in the beginning of the growing pains, of the 6000 year cycle. Gentiles at this time, we only have a keyhole view what's going to transpire the next million years .

**Can God make a rock so big cannot be lifted
I don't know? I do believe most of us may go
through a reincarnation Process again.**

#126#❤️... Because maybe the body been damaged for reality to deal with, unless hopefully God will intervene, **while we are still alive. In America next life laws will & should be still in affect example; no smoking in public places. Hopefully more legislation will pass to better eating & toxic packaging.**

126.

More, Brief view of after life philosophy???

Something to think about; A child dies at 10 years old, God says in Psalms 90:10, we should have 70 years. If there's a possibility, reincarnation is true... When someone dies at age 60, does it complete the 70 years ?? Turn of the century. If a young soldier killed in action, is it possible through reincarnation, he can enjoy what he fought for today?

Most don't know who ***"Harriet Tubman"*** A X slave Black Lady, small in stature 1822 to 1913 a leader of the underground railroad , running underneath the stars through the snake infested swamps, **taking many families north. To the south, slave masters, she was**

#127#❤️... **considered less than human.** Would it be possible Mrs. Tubman has a spark ✨ of "life" or reincarnation in First lady Michelle Obama?? **127.**

I like to see those southerners, "faces" who beat her, chasing her with dogs, turning over in there "graves" because of a "thought" she might be could be in the White House some day. That's if they had not been reincarnate to a rat🐀.

At what point a person is resurrected like when he dies with the same recognizable features, I don't know, I doubt if anybody on earth could explain this at this time. This may not be important to some, somehow I was inspired to say it for those who been brutally disrespected. **Black Lady, Katherine Johnson, most brilliant, probably more than Einstein . A walking computer without her there would be maybe a few more years delay in getting a man on the moon through her calculations, But yet, in the 1960s with a room full of men she was not allowed to drink out of the same coffee pot + walking almost Half mile to bathroom, rain or snow. Those who had to walk so low in this life as there eyes 👁️ focused on the ground,**

#128#❤️... they will walk taller, in the crowd In the future. Especially those who are not self-centered.....

Jessie Jackson died 2026 . *"I believe he'll be back"* He wasn't **perfect**, if return back as a Black person from previous,💥 life who contribute much to society. Where could've He be going to next?? I expect in the next life he will do greater things if it's God's will. Yes, he was a Christian, but after death **only** God can decide how to continue. I believe he may have a second chance, including other Christians who had not seen any evidence otherwise. If they can overcome the idea, they're not being deceived by a non-existent devil👹..... **128.**

George Washington being the first president Most honored, President, **Is it possible?** President Trump could have a spark 💥 of life from Him, as he could be the last president before the ***New Age revolutionary*** to the world Begins?

I didn't vote for President Trump , because He has so much controversy, but He may accomplish some things, other presidents, could not accomplish, hopefully bringing law & order to the world, especially

#129#❤️... drug producing nations. Only time will tell probably within the next 10 years. The Iraq war 2026 only time will tell if that works. Many will not understand, or believe anything, what I'm saying, calling Christians or Muslims "crazy" (old song, "crazy" patsy cline) is the worst thing possible one could do. Trump says there will be no more "war" & in 2001 I said I'm not gonna write another book exactly what I'm doing now started out to be a 500 word report.

As of 2026, Iran war Christians is having a heyday mixing it into their theology.

129.

An interesting thought those who hate the Black People, Indians, minority groups Etc. etc. etc.,, could it be possible those who been mind condition to **hate those**, maybe reincarnated into that group or those who raped women murder, etc. etc., be a victim themselves in the next life ?

The ideal of after death reincarnation is having to learn everything over again "wow", when I look back, I guess that's why God don't allow us to remember our past life. Other than what I'm doing today, writing this report is the most important thing in my life + family. But when I look

#130#❤️... at all the wasted years Sports hunting, Chasing adventures, self pleasures, worldly adventures I'd rather would have been educating myself, at least being a good justifiable lawyer, at least able to spell words correctly. One thing I admire in the Jewish culture to see their children, being raised & everything surrounding the worship of God..... "Gilgul" called cycle wheel. It describes how a soul returns back to the physical world to complete its "tiskum". *It suggest to correct past mistakes or to achieve, spiritual perfection. For me too long of a list to mention.* One will have their hands full just understanding of what God expects of you now, educating, yourself about proper eating would be like going to high school for 4 years.

130.

Abortion What a subject . The father of that child is just as responsible. There could be many justifiable reasons . Would not really prove anything at this time to talk about it, that's between them & God. Jewish scholars do have enough evidence to prove at what point it's wrong. My view when water mixed with a tree seed life begins Life begins as man & woman generates a 🌟 spark of life with his sperm, woman egg through the fallopian tube.

#131#❤️... Where that spark goes if abortion, what do you think? The reason I left the subject in here Third world countries nearly 30,000,000 abortions a year. Hopefully, through intervention of Elijah or Legislative laws, or efforts in Planned Parenthood activists might have to work overtime, it will stop. The best way to prevent this educating, the lady & young man to have respect for the women, Usually at a young school-age on every monthly reminder.

131.

Christian or Muslim may condemn abortion. Described by the rabbis at one point it becomes a capital murder or financial-means Legal interpretation, I could write another 25 pages giving scriptures which in their interpretations it's for bidden for non-Jews to destroy the fetus. ***"When you water a seed of a tree life begins". If you want to know the full truth about abortion, don't ignore the Jewish evidence.***

#132#❤️... Like the Atacama 600 mile long, driest desert in the world South America it rains one cup every 100 **years**. **About** 2000 words per tablespoon would equal one cup in this report? Hopefully it won't take you 100 years but 55 minutes reading the full report..... ..Hopefully if you died as a Christian, in the next 🌟 of life, God will gave you a chance to correct & understanding the 7 Noahide civil laws. Which only begin in the 1990s out of Israel made it more public. **Most of all we must not be ##**

132.

Judgmental about what we think who should get this or that.

It's believed, not all souls will experience reincarnation or automatically for everybody, but rather a process, specific purpose & mystical circles of divine justice. *Gilgul Means recycling or transmigration of souls, It's like a candle, lighting another candle.*

#133#❤️... When Egypt or Greek mythology try to insert its own view of the afterlife. You get a strict world view opposite of the truth. With a big huge brick wall between Judaism & the world, Jews, the potential for misuse. Googling information you will see Christianity influence, material, mixed in. Especially when they start referring to Jesus as yashua, A big red flag ➡️. Again God's actual name or name yeshua was never written out in the manuscripts. Most likely before Gentiles fully understand the 🌟 afterlife, the Moshiach Will be fully understood around the world & established.

133.

Only so much I can say at this time, one reason because of lack of knowledge.

When I was in fifth grade, grammar school, you'd get these movies about future events & describe how trucks would be so big that you can live in them & deliver merchandise across the country, it was unbelievable, but 50 years later you see them going down the Interstates. The 20 minute movie told you about this, but do not tell you how to build semi's tractor & trailers. Same principle about the afterlife may apply for now as of year 2026.

#134#  ... *So much unknown knowledge out there.*

134.

Jewish Mysticism, Most Gentiles knows absolutely nothing about. Known as *Kabbalah* “tradition” is the esoteric inner dimension of Judaism. That seek a direct experiential connection with God & understanding of hidden, divine structures. **Talks about reincarnations the souls journey...**

The old sci-Fi movie the phrase “I’ll be back” “Terminator” Arnold Schwarzenegger a movie star. Describes a reincarnation, but there’s more of a biblical way to understand it..

There’s millions of pages about the subject. Historically it’s not recommended for gentiles to study the subject, because it requires immense preliminary knowledge of a Torah, ,,,,,,Talmud & Halacha . It can be so easily

#135#❤️... misinterpreted become dangerous & filter into ***Occultism*** . It should be done under a qualified teacher, because it can be so easily misunderstood.

Exposing the lies of Christianity would not be very effective unless without sharing what God expects of you. Without understanding the 7 civil Noahide laws...

Planet fitness the next powerful subject & our health. I hope this is the new beginning also The world is full of

As we may be entering into the Era of living forever where do you start? I can warn you about a rattlesnake in your yard. But if you don't look for it Owning the fastest car on the road, If you don't take care of it, how long will it last? Hopefully the McCabe Ben Noah Report can bring it to your attention

"Inflammation" in the body. The most serious, the most overlooked, Most misunderstood , thousands of different things may affect us . Can be found in every little part of our body at different times which starts out so silent destroyer. Most know this happens , but.....

#143# ❤️... ***inflammatory bombs*** 💣💣💣 ... This deep water subject can be like the “Mariana” trench in the western Pacific Ocean. Hopefully I’ll just give a brief summary. **143.**

The most damaging thing to our soul we’re, eating more micro plastics than we realize. Like dandruff in your hair, micro plastics sprinkle about unseen. Your toothbrush may be made of recycled plastic bottles. These plastics absorb into our skin, & the results colon cancer is rapidly growing among young adults.

As our senses is being constantly manipulated.... This generation has become walking, garbage cans, absorbing toxic chemicals like a sponge, absorbing over flowing toilet water,,,,,,,,, from

#144# ... **everywhere.** Destroying thousands of our stomach **microbiomes** bacteria, affecting our immune system & digestion + mental health In balance, which I believe maybe the main cause of people doing drastic things, killing others in schools wherever.

144.

A new frontier is opening up eating correctly, similar info in the previous , (McCabe Ben Noah, Report) you just read....

2010 Michelle Obama “First lady” begin a campaign focusing on solving childhood, obesity, improving nutrition, call “let’s Move”. Schools had become lazy & feeding the children pizzas & hotdogs, processed foods, carbs, fats, sugars, tater tot, sugary, cereals, cocoa puffs Etc. etc.... In the 1960s when I went to country school, they cook good old home cooked meals, mashed potatoes gravy, green beans, carrots. Etc. etc. a good Variety of meats.

Healthy, eating a few tips. In. the new world to come, we will live forever. We have the **DNA** in us for

#145#❤️... eternal life, being revealed. ... Some things are being revealed today, but so many things are being overlooked. The world is full of scams, comes along with new knowledge, info about health. **145.**

Here's **one** example: Dr. Fauci discusses parasites in parts of your body only to sell you a product at the end of the commercial. It sounds so good what he says, but if you do a little research about particular **pancreatic** parasite blocking insulin, may be as rare is dinosaur bones, so do your research Before you spend \$500 on pills. **AI** is imitating celebrities Dr. Oz is being used in A1 advertisement for type one diabetes, wanting to sell you pills that may not work.

Another example Pine sap, To kill mouth mold. When I investigated no such doctor existed. Some scams do have a little truth, mixed in.

All Pharmaceutical companies depends on your ignorance to make their trillions of dollars.

#146#❤️.... I will be sharing information & opening up my new website called (coldcanning.com) showing you how to completely get rid of all the plastic containers your using now + better way of taking care of your pets. & how toxic poison is in every food. Probably have in your fridge & how to discover them..... Again, you must become a Professional label reader.

It's been said, feed the terrorist group, American diet for a few minutes then you can control them .

146.

AS a new frontier is opening up; Eating correctly. No fatty or processed foods sugar, & seed, oils , soft drinks, some salts can have five times the amount of arsenic, Etc. Foods with **natural flavorings** , the worst in the world with 70 different toxics ingredients. There are many people conscious of eating, & there is another level few know about everything from plastics, aluminum to teflon, affecting our health more than we realize, especially stomach **digestion & mental health**. The world has presented foods to sell & taste with ingredients, you can't even pronounce the words. General rule, peanut or almond

#147#❤️... butter if it says peanuts, only that's good. Palm oil, sugars 💀 example for the other foods. Stick to one food items. Peanuts & skin on almonds questionable???

147.

Oil from 💀 seeds investigate. I can remember health minded, church goers, thought grape seed oil was a miracle invention. It has omega-6, **can** be devastating, **Causing inbalanced diet. Inflammation, some processed with chemical solvents.** Some seeds may be unhealthy like some tomatoes. Some countries, eliminate the seeds from the tomatoes for various reasons before they eat it. Just do your investigation.

Sugar, sugar, sugar. Man made, you cannot outlaw it, You can stop using it. You don't need one ounce for your survival.

It can be confusing how to read the labels. A 5 ounce glass jar of yogurt may have 20 g of sugar + 30 g of added sugar. The key thing what does **added sugar mean** ? It means corn syrup, honey, etc. also. So 20+30 equals 50 grams how many teaspoons are in 50 g of sugar? Up to 12 teaspoons "Wow" More than a can of Coke from 5 ounces... All the sugar you need comes from fats, vegetables, etc. Eating no sugar at all, will

#148#❤️... have some side effects headaches,
cravings, mood swings, Etc..... **148.**

In my 20s I worked for Pepsi Cola, I drank at least one or two 16 ounce bottles a day. The average person can easily consume 3 to 5 gallons of Sugar or corn syrups a year & at least 3 to 5 gallons of oil from fried stuff. How many 55  gallon barrels does that add up to in a lifetime?? By the time you're 30 you could've cut off 20 years of your life or have a miserable unhealthy the last 10 years of your life. Corn syrup in America is from GMO corn & maybe use more often than sugar, either one can cut many years of your life quality. Mexico consumption can reach 1000 cans per each person- year. Poor communities, soda companies reducing the cost per soda encouraging filling up.

Those who study the code of healthy eating, their lifespan, will increase living, 125 years, 150, 200 years then million years. **Doctors & hospitals will be around for a long time** as a majority of the population will not look into proper eating, but it will eventually **might** taper off, **because of new Laws.** . Will everybody live for eternity? **Of course, those who are struggling in life, unhealthy food, smoking cigarettes, etc. may give them only a little pleasure in life & may not have a choice because they have to eat what they can get. If you're wealthy,** incentive to live forever maybe eventually get at a all

#149#❤️.... time high. **But one must remember if you're wealthy & live longer "self-centeredness" can destroy you. having billion dollars in the bank is more than you need,** as the third world countries, struggle just to have clean drinking water, healthcare or even food, or most of all education.... What we can do to improve planet earth health? With common sense, good judgment, mercy & compassion, hopefully we become what God like us to be.

149.

As of 2025 I am past the senior citizen age & feel pretty good & take no drugs, but with out some previous knowledge throughout my life, ups & downs, I know I would've died long time ago. I am feeling side effects from my early days of unhealthy eating. Hopefully I can fully understand what it takes to reverse the damage, as one example, I'm trying to eat one or two cloves of garlic, crushed every day on buttered toast. After crushing garlic, it's best to wait 10 minutes. + 99% eliminating sugars & almost 0 consumption of fried stuff. Etc. etc. etc. etc.... Unfortunately, I must admit, I have what you might call back sliding many times in maintaining healthy diet Last 50 **years. If** I do, I never quit trying...

One test I believe is being overlooked is your **A1c** **Determines how close you may be a diabetic. Most people consume, one or 2 cups of sugar every few days, get a microscope out & read those labels, Learn what they mean.**

#150#❤️.... Many don't even know about cholesterol testing, or what there level is. At 30 years old, one day I walked in Walmart a little table set up a man convinced me to get tested. Come to find out my cholesterol level was so high off the chart.

We can't eat a salad without polluting it with salad dressing. We all love a good mashed potato, brown gravy, flaky butter, 🍞 biscuits, Cornbread, 🍗 Southern fried chicken, with added salt on everything, sweet teas ☕ , topped off with 🍏 apple pie & ice 🍦 cream, coconut cream pie 🍰. At the smorgasbord, we don't eat in moderation we eat to get our moneys 💰 worth . But we cannot continue indulging. , especially if you're over the age Unfortunately, we focus on what delicious , tasting, good rather then healthy..... Convenient foods may be a giant magnet, worse downfall in the refrigerator, process lunch meats, potato salad, macaroni salad, "ice cream" cream cheese, etc. etc. etc.,,, especially wrapped in plastic,,, influencing, conveniently, eating unnecessary. Have you ever noticed a strong magnet, pulling your grocery 🛒 cart to the ice cream department?

Seeking out clean water, I don't drink or use tap water, Flushing the toilet, OK. I use distilled **water**. All stainless steel. It's like rain water, storing & drinking from canning – pint jars.

#151#❤️... Distilled water, reverse osmosis good, depletes minerals from the water. Also so many lead, pesticides, bacteria, heavy metals, Etc. etc. etc. but if your eating correctly eating the right vegetables, replaces the minerals. If you are a plant, minerals soak very easily into the plant, check it out. **151.**

All canned drinks I believe are **so** toxic unless there's an emergency. Green beans as example, if you need, simply rinsing them off, can help. Cans labeled no salt the best, organic, frozen or fresh. **why they need to put preservative in frozen beyond me. Amish way of cooking don't think about these things.**

If this was a movie, what I am saying, this is only a trailer, or a teaser, bumper tag what needs to be said.....

Plastic cups, Full of micro plastics, & in paper, or styrofoam, releases, thousand **particles,** **Especially fast food places, especially when heat up. Hi levels of particles phthalates, plasticizers, PFAS Forever chemicals. + Hundreds of the other chemicals with long words.** Frozen fish, sealed plastic vacuum sealed packages. I still use but rinse off the fish immediately.

#152#  ... Plastic shoes  Such as Crocs there is concern of potential chemical exposure lead, phthalates Leading to foot issues, fungal growth, etc. impact through micro plastics . These fibers in socks become, if not airborne will linger in the environment for a long time. “ Crocs” durable Clogs are banned in schools over 20 states for the other reasons. Chemicals like neurotoxin goes directly into the nervous system hormonal disrupting. The list goes on& on & on. Everything from socks, underwear to women’s sports, bras especially polyurethane, usually made from plastic recycle bottles. We seen how **dust** builds up over months, micro plastics might not be as bad, but they’re there. A winter coat made of polyurethane is nothing more than Huge, dust mop, shaking out the dust.

#153#❤️... Permanent press clothing. Don't have time to explain all the problems there.

Again ziplock bags full of micro plastics, releasing thousands of micro plastic particles, there is some lawsuits about this.

💀💀💀 ***Most over looked, low grade stainless steel pots pans & drinking vessels.... All stainless steel is not the same...***

Most Americans use low grade stainless steel pots & pans , drinking **vessels**. Which leeches out high levels of manganese, **nickel**, chromium, Etc. etc..... Especially cooking tomatoes , causing a metallic taste. Surgical grade stainless steel is the best, prioritize **304, 314, 18/10, 18/8, 300 or 400** **Considered the best....** 💀💀💀 Most imported pots are the worst. If there's no

#154  label on the bottom of the pan, it's probably a low grade **200 or** 18/0. Educate yourself, (Google this subject).

Cold canning - mason jars , set up at night **AM** for an hour or two meditating & studying with a pint jars water drinking next to me. I drink at least one, drinking it slowly, it's very convenient sitting on my coffee table which I keep 2 or 3 jars all the time. These pint jars are good for coffees & **green** teas also store easily in the refrigerator. If you drink coffee, if you do a little research, it actually affected your cholesterol level. Look for organic, so many coffees on sprayed with pesticides & may be toxic. When put in jars hot, the jars seal very well. Water immediately out of the distiller is quite warm. It seals also. & safe to take on trips in the car. Reverse osmosis is good. Water is best to drink at room temperature . If I use ice cubes which, I don't often, unless it's 100° hot day when I'm working. I use stainless steel ice cube trays. Explain more on **cold canning** in a minute.

I believe frozen vegetables is your best choice eliminating toxic cans.  **bread** can be the worst thing in the world if it's

#155#❤️... not got the right ingredients. The Torah talks about making Ezekiel bread. There is other breads now appearing on the market that is a good choice, **inner wrapped with clear paper, keeping the bread away from plastics.** I'll take my bread & leave the paper covering & usually put it in a pot with a lid' if you don't have a bread box. Because each time you disturb the outside plastic wrapper you disturb micro plastics into the air.

155.

You may know all the little fairy tales stories about the daydreaming milkmaid & pail. But here's what you don't know.

Nowadays, you can buy milk from grass fed cows. But remember, cottage cheese, sour cream in plastic containers, come from cows, fed, GMO grains. The same with regular cheese sometimes it's got a mixture of everything else in it. There is cheese, from grass fed cows Depending on how many months grass is available. Some producers say they don't add GMO corn to the grains if needed.

Using alternative milk, almond milk, rice, milk, oatmeal milk with sugars is a big question.??? What consumers don't realize what appears to be in a paper carton has what's called

#156#❤️“... polyethylene” type of plastic. Some milk cartons could have a plant-based plastic whatever that means. There may be still a few bottles of milk around Which it was a widespread disappearance beginning in the 1960-80s even then, milk from GMO, fed greens & hormones, fed cows who knows what you get from that.

156.

Some local dairy farms say their jugs or cartons of milk when they're shipped in usually has 8 to 10 days of drying out good, whereas at the dairy plant, they spray the jugs wait about eight hours.

There is some cheese in wax from grass fed cows. Micro plastics from plastic, cutting boards or wooden ones with little fine cracks were Bacteria could hide, just lay a sheet of wax paper down.

In Judaism, the word, milk has a symbolic meaning , Torah wisdom, divine kindness, social nourishment, etc. etc. etc.

Formaldehyde “You heard of the phrase best kept secret”. It's used in shoe material installation, glues, building materials, a 5 mile long list. Considered as a known human carcinogenic, causing cancer, damaging DNA Causing body cells divide faster than normal.

#157#❤️... It's also may be used in modern foods, certain mushrooms, especially dried fruits, pears, apples, bananas, cauliflower, red onions, potatoes, legumes, nuts, Etc. etc. etc..... Boy, you got your work cut out for you figured out how much of that is true. There is a long list info about the cancer it contributes to??? Early 19 century formaldehyde use in preserving milk, masking spoilage about to go bad. In Mexico milk sits on the shelf for six months using UHT. **Switching over to Rice, Oats, Almond & Soy milk Etc..** **Wow what a big question there.** Lot of cultures don't drink milk for various reasons too hot to cold, **The Eskimo**, Native American, Indian, Etc. lactose intolerance. **Bottom line do you really need milk it's good for baby calves.** If you don't drink milk, there is so many other things you can get your calcium from in vegetables, & you don't need ice cream with all that sugar.

#158#❤️... Which is a huge part of American diet in the evening watching TV .

158.

Getting back on the **formaldehyde rabbit** trail. My younger days I looked at new mobile homes your eyes start watering & you couldn't hardly breathe after going in those newly built homes because of the formaldehyde, Which gases can last over 20 years. It's used a your toilet paper in the most sense the area of your body. **Bottom line it's considered very dangerous. One may think how can I live in this world? Well, they did for thousands of years, Without these chemicals, but world convenience, & production makes it easier to use them. Unfortunately, we all can't live in a little cabin in the pine mountains. There is some cultures almost doing that might be the Amish for one, another group maybe in the deep jungles, isolated islands, Or maybe Russia in those**

#159#❤️ ... long Faraway isolated areas, Or high up in the Himalaya mountains, like the monks do, Etc. etc. It just like living without organized religion there is ways..... **159.**

Teabags so toxic, google that information . I tear open the teabags pour into a pint jar, adding hot water, the loose tea settles to the bottom, & I drink the top off. Sometimes add more water for the next day. **Beware There's so many new inventions of teas.** Some may be destroying your kidneys. Those vitamins & Supplements **"WOW"** all I can say is investigate. Some May sound good, are formulated & packaged in peoples garages.

There's a lawsuit about Dave's natural bars actually having four times of fats but with EPG you don't digested the fats so don't count, they are claiming. **EPG** esterified propoxylated glycerol the world food production claims this

#160#❤️... is safe in low usage. I don't have enough space to list the side effects. **160.**

There's a lot of Gods good food out there if you look. So many foods are not what they appear to be, 1986 baby carrots is a new invention made by machine using discarded, carrots, then soaked in chlorine to preserve them & wrapped in plastic. **That lettuce that you buy in the store pre-washed three times in "chlorine" List goes on & on.**

Chlorine is considered highly toxic, used in swimming pools, sewage, disinfecting water, building blocks for PVC plastic hundreds of the other building products. Chlorine gas is highly poison. Food producers claim there chlorine is less than tap water. My question would be why do you

#161#  ... need to add it in the first place? Food travel so far around the country. Hopefully you can wash it off, good enough to be safe. I don't see any other way than to **chlorine** it, but the safest it might be best to start growing lettuce in your window flower pots. **161.**

P.F.A.S. Substances, Synthetic considered a forever substance found in Teflon waterproofing, Etc. etc. etc. You need to educate yourself about this as much as you can. How many times you threw away old Supposedly has a lifetime warranty. Teflon skillets because they look so scratched up peeling away, Teflon peeling off, all that goes into your food. Just like lead paint It's so toxic destroy children's health children's room. Rather using stainless steel or cast-iron pots, it's how you cook. I always add a little water to start out with & watch it closely, & it usually don't stick.

#162#  **... Beware, beware, beware?** Scrolling on your iPhones , if you'll see something about health start following it will lead to more info. Of course, beware of fake AI information. When advertising says it has a miracle cure, Home remedy, declaring somebody's trying to shut them down & Claiming this will be the last time you hear this message, but yet wants to keep you in the info commercial for more than a minute, Wanting you to click on somewhere to see more , Hoping you'll give them information about yourself, to steal your information. One of the most dangerous things you can do sleep with your cell phone under your pillow or near you.

Continuing  **Cold canning**  **Mason jars...** It's about eliminating plastic containers to store food in. I use 3 different size widemouth canning jars, making a pot of chili or vegetable soup when it's very hot, **pouring** it in those jars & tighten the lid down & put it in the refrigerator after cooling down. When jars are hot, **do not use cold, wet rags,** jars can explode, wiping them off. Food can last many weeks longer. I use the same lids over & over **until, it** gets rust spots... . Widemouth jars is the best they clean easier. If jar sits, pushed back in fridge a little too long & you go to open it up, & the lid is **not** sealed, I usually throw it away. You can invent many ways to use this idea. For big families quart jars are great for chili's &

#163#❤️... soups for teenagers, they can open up for a quick meal. I like using the pint jars & half pints, **quart** jars & widemouth Jars again makes it easy to clean. Leftovers, heated up or if I'll make a big pot of beans or soups, chili, I may make 7 jars of half pints lasting for weeks for a quick meals. To open the jar when they're sealed, you can get a beer can opener at Walmart with a magnet on it to put over your stove vent. When you're hungry, knowledge of healthy, eating can disappear quickly out the window, especially eating foods with no labels.

We have the idea in our ***Minds God's going to give us a new body*** whenever. **I hope that could be true.** As ***The new revolutionary age*** begins. It might take hundreds years to correct what those pizzas Soft drinks. hamburgers etc. etc. etc. did to our bodies. Unfortunately, there is some who over exaggerate claiming simple things like pepper is like glass in the stomach Big fat Lie.

I don't think I'm gonna be saying much about healthy eating because there is very educated people that know a lot about the subject. Again , you'll probably have to study more than you did in 4 years of high school about your health. I hope I can encourage you to investigate,

I love a good vegetarian. meal & at This time in history God says Genesis 1:29 & 9:3 mankind can eat any meat if needs to survive. Remember Jews interpret that as animals, That

#164#❤️... moves about, not just plant life.... Of course, there is better choices, especially once you become educated. Some religious groups **claiming all meat is defiled**, may be true to a point, but there is organic, grass fed & wild meat & fish also. **Some people can't eat meat anymore because of the long star tick bite can last a lifetime.**

Most salmon, farm raised "investigate". Farm raised salmon has asataxathin in there to make the fish look pink color. Is it GMO grain feeding Salmon?. There's seven Fish you should never eat, investigate. *Hopefully Like poking a sleeping polar bear, waking up to get the world to realize the problems of plastics. The most important question what can we do to make the world better? Looking back 30 years if we had the knowledge we might not look any different today.*

Post # 0007... Why shouldn't we eat bioengineered (BE) GMO foods? Is it killing us Slowly, prematurely? It's like falling in a freshly dug grave full of rattlesnakes. We are in a epidemic stage, infestation, rapid contagion & taking over with technological ways. This is all happened within a few years. **So**

#165#❤️... corporate food producers can make more money💰💰💰💰💰💰. Also, it's just way things are. Concern is, **GMO** foods induce potential allergenic reactions, **Creations** of new toxins, antibiotics resistance, Unknown, long-term health effects, like organ damage seen in some studies. Environmental issues such as gene transfer to wild plants or increased herbicide use. While major health organizations states currently claiming GMO foods are safe. I wonder how much money & research to prove that is correct. **165.**

Critics point to the lack of long-term human studies & controversial research linking them to “harm” as well as ethical concerns about altering nature & corporate control over our foods.

#166#  ... **Canola GMO oils about 90% can be found in most all processed foods, chips, crackers, cereals, snack bars, candy, bread, etc. etc. etc..**

166.

Only you can set the standards and demands & regulations there's a list of products not GMO or BC or animals pump with hormones. What I am saying, is only the tip of the titanic iceberg, do your own research Google what, (crops are GMO?) Organic foods by government standards has a strict criteria . Of course, some might change the labeling to look healthy as example (cholesterol free water).

These GMO products causing healthcare cost to go through the roof. **Polluted air is a problem,** but some effort has been made to clean it up, such as eliminating lead from gasolines. **President**

#167#❤️... Trump has done some de-regulations. Something you can do immediately reach for the most healthiest Natural foods, & do your part complaining to the stores when they don't have vegetables free of GMO . **We must put a stop to GMO foods. 167.**

🐞🐞🐞🐞🐞🐞 Remember, *GMO Corn 🌽 & grains causes the worms stomach to explode when eating the new sprouts , killing it. Again, I must remind you.* Many GMO foods, Soy beans, granola, Sugar, beets, cutting alfalfa, animals feed , papaya, yellow squash, apples, pineapples, soy bean oil found in tofu, Soy milk,& lecithin, salad dressings, Etc. etc. **GMO** make the products designed to make things grow faster..... So you got your work cut out for you? In preparing yourself to live million years..... Hopefully I can get you to be like **Sherlock Holmes** or **TV icon detective "Colombo"**, make every day investigating & the dangers of plastics & ingredients in food..... Popcorn may be the safest corn to eat, of course 99% prepackaged from the store that I've seen has oils I would not eat. Uncooked popcorn, I pour out a cup full in a pan & let it sit on the stove maybe slightly heated for 30 seconds let sit for a while it dries out the popcorn moisture. If I add high-grade olive oil, barely enough & 1 tablespoon of Organic grass fed chee butter, usually chee Butter only. I heat the oil up first for about **55** seconds. Then Sprinkle very fine garlic salt, then I add the popcorn **last** & you know what to do from here..... There is guidelines on what best olive oil to use Google guidelines in using olive oil. I buy my pop corn in quart glass jars

Polyester clothes, could be the most dangerous thing to wear, bisphenols, usually made from recycled plastic bottles, petroleum base Etc. etc.... Do your investigation. In reality earth 🌍 is going to get cleaned up in the new 🌍 world. Cleaning of the earth what a challenge , some attempt has been made & we do live in a world of reality. Hopefully, at least all drinking water can be cleaned up like in the story of **Jericho**, Elisha ll-Kings 2:19-22. He requested a bowl of salt & prayed, & a water source, that was completely contaminated, become like spring water. Hopefully what's been destroyed is not completely lost yet, The story of Elisha, **ax head** was lost in the water. He prayed, & it came floating to the top. Restoring what was lost.

Christianity claims after you die there's no second chance for anything... We will live over million of years. Hopefully we can reverse damage done to our selves. Eating a diet similar to Jews, OK but don't. claim its law for everybody. Note: Jews, do not eat meat & dairy together. It's because it creates two different acids in the stomach & a little harder on the digestive track. God knew what he was doing, giving Jews special laws. Autophagy kicks in, detoxification take over boosting the immune system properties, The same principle applies to humans to live 1 million years, One must mind condition yourself to fast every week.

Propaganda was to sell food. Maybe a Minimum amount of fasting might start with 18 hours after that body begins burning fat , healing process. I have went seven days without eating, most of all drink water not to destroy your kidneys, next may be moved to 24 hours if you are in the retirement age consult your doctor maybe one or two days a week limited meals one a day might be good to start with. Someone may say well when my time is up it's up, but do you wanna spend the last 20 years of your life in the nursing home bottom line reset your mind , This is something you should think about almost every day. If What I say,,, saves one person from the nightmare of gambling, it will be worth it...

It's so often described as entertainment even in the dark ages,,, it's worldwide, & the best kept secret, which comes in so many forms... All those gamblers out there or not, atheist,,, most all believes in God at different levels, & is one of the worlds most common worst sins...

Most Jewish scholars🎓, may say gambling is not the sin,,, but a stupid thing to do... Of all the Jewish Scholars may say this is one thing,,, I will disagree with them about... First time buying a lottery ticket or playing, a video machine may not be **sin**, but it will lead to addiction... Jews will say being a professional gambler is **sinful** ... At what point it becomes to being **sin** one cannot explain it...

#❤️# 254 The best thing to do is mind condition yourself it's a **sin**... Don't accept a benefit of the doubt that it's not... Some organized religions, even Muslims,,, say don't do it, but they usually don't preach against... A huge religion I once belong two you can find gambling devices at church, picnics, or festivals described as fundraisers ... Now days, you can sit in your pajamas in the bed & lose your life & retirement savings even your home,,, giving it all away to somebody ,,, you never seen,,, usually a rich person...

254.

Growing up in my farming community, there was no public gambling... Only at Elks or Moose or small private clubs,, Payout was under the table... Casinos are not established at the Rivers no more... As of 2026 in the a rural farming community, S. Illinois you can find at lease 650 machines at one location... A Few miles away a town less than 50 people you might find over 15 video machines... Walmart now has scratch off tickets machines out front...

#❤️# 255 Most every gas station has gambling... I'm not an expert on the subject, but I do have experience in stopping #❤️# 255 ... it myself... There is no Silver bullet to stop... There is no medication...

255.

Many are living in a catch 22 with God... If you want to feel good about gambling, you can easily justify it OK ... I say gambling is like sins of Judah,,, abandonment of a covenant with God,,, adultery,,, social injustice,,, IDOLATRY,,, etc. Falls into that category of gambling... If you're trying to stop,,, there is continuous dangers of relapse is always present...

10 Commandments or 7 civil Noahide laws don't say anything about Self centeredness,,, There is a fine gray line with gambling # **one** it consumes your mind... Myself I never thought about it until I got near machine,,, If I gamble, it was pure convenience... Gambling may be the hardest addiction to overcome,,, other than the physical drug addiction...

#❤️# 256 To fit in God's forever living plan one must overcome any unwanted addiction... Gambling is often referred or compared to crack cocaine addiction... What I am saying, will not mean nothing to the world,,, but hopefully to those who have some conviction about Forever living with God,,, & may been tempted to start...

Getting even in gambling losses,,, would be no different than looking for a toenail on 1000 mile beach of the Pacific Ocean... If you have losses\$ deep down, you know you will never get back...

If you do think so, that honey in the bear trap will get you... Daydreaming about it will not make it true... Yes, someone will win million \$,,, but temporarily a close look,,, it's not what it seems to look good like... If you're struggling with gambling, a interesting story in the 1500-1600, AD about a story Rabbi Leon Modena "Says a person never makes peace with his losses"... He was a very smart scholar, but for some reason like others,,,

257.

#❤️# 257 he struggled his whole life... The community he lived in Ghetto of Venice gambling was everywhere ... Gambling may be serious problem in the Jewish community especially with teenagers... There is mixed emotions... Maybe debates... The Talmud (Sanhedrin 24b) Says a professional gambler is disqualified for being a legal witness... You may lock your car doors, but let the rich steal your money... With video gambling, there is no 50-50 chance of winning... All the money that one Wins temporary goes right back into the machine + more \$... **Gambling,,, total memory losses after 24 hour after given your money to the rich... Could dementia contribute to the fact???**

Now early 21st century,,, I would not **NOT** buy a scratch off ticket from mother **Theresa** if she was selling it for a nickel to support a orphanage & guaranteed me a 50-50 chance of winning a million \$... First time, I went to a casino I won \$5000 & payed taxes on it,,,

#❤️# 258 eventually I give it all back... Looking back my forever time with God, was seriously in danger,,, Especially if I was suddenly accidentally killed or died... Purgatory; I believe God does not have a heavenly

Prison to Sentence 100 years for any your sins...
Note: One may think nothing I say is worth anything or true because I may been involved In gambling,,, whoever may say,,, that let me ask you about 7 questions??? Maybe God let me to go through that to say what I'm saying today... By the standards of society,,, Even though I gambled when it's convenient,,, I was considered addicted... What one would have lost,,, is your jackpot savings you would have today... what you lost is nothing compared to what God will give you little by little... The winner in any gambling is actually a loser... It's like stealing,,, will affect you rest of your life

#❤️# 259 The only reward to Stop gambling,,, God will let you keep what you would have lost to the rich man who could care less about you... Most likely anybody addicted to gambling,,, will not read this unless you pointed it out to them... The most helpful benefit from what I'm saying is to those who have not started yet... Some advice about stop gambling don't carry any cash on you... Avoid gambling establishments. Lock your credit cards, etc. etc. etc,,, that my temporary work In a physical sense, but you must recondition your mind...

259.

Independent, gambling parlors most believe in God... Profiting From Humanity in the name of its entertainment... Most likely nothing I can say to change You ,,, goes beyond self-centeredness...

What I have realize now if I would have won \$100,000, it would have a forever cursed receiving money from peoples misfortune or or mental weakness.... I want no part of it... The phrase "**good luck**" Came from 15th-century middle English & gambling terminologies...

just don't claim it's a sin for anybody... It could
become a sin to drink too much water & kill yourself
As far as the world concern, it's better if it didn't

Trump,,, who claims he's never drink,,, among the
others... Especially if you're involved in high society circles...

If you're deep freeze is full of meat just take time to get the blood out... Certain things God told the Jews not to do, but it's OK for the Gentiles,,, tattoos, but God did not condemn the gentiles for having them, but I have seen family members who had some serious problems as hepatitis flare up years later... There is scriptures teaching general principles about how we should treat our neighbors,,, warning against a person who tricks or making practical jokes & saying to their there neighbor saying "just kidding or I was just joking"... Proverbs 26:18–19 Like a madman who throws, firebrands arrows & death is to the one who deceives their neighbor... Many people may go through emotional problems or have panic attack attacks & for a out of control person recklessly throwing deadly weapons... Don't realize what he's doing,,, but maybe held accountable...

As a bunch of us country boys after a night hanging out,, one of the boys said I gotta stop & get gas & he mention his parents was out of town... We all thought we would pull a practical joke... I was selected to be the Main participant one of us went

Sometimes I wonder if God didn't plan it that way because I would not have written this part & this I had experienced with & talking about my past in the other parts... Bottom line don't scare anybody or even a little animal unless you're wanting to chase it off your back porch... There is scripture saying don't be scared of anything but there is many who do not know that...

"Let me start by saying that McCabe is a seeker of spiritual truth, self-taught, and serious about it. His book is replete with spelling and grammatical errors that would get him chased out of any classroom in America, but that just doesn't matter as he takes the reader along on his quest to get at the roots of core beliefs of Judaism and Christianity.

*McCabe has made a marvelous spiritual journey, questioning everything he was ever taught in any church and, in the process, putting aside some of the most sacred beliefs central of Christianity. He finally arrived at the core of all spiritual thought that has intrigued the greatest*

that has intrigued the greatest theological minds, the awesome "oneness" of God, stripped clean of the layers of theological interpretation that took the paths of Judaism and Christianity. I think anyone who has wondered about the teachings of his or her particular faith would find this book fascinating. I know I did."
